An Angry Letter From Mario Castelli:

I can't even hide it...

I'm pissed off.

I (REST) wasn't writing this letter.

There are about 4374 things I'd rather be doing on a sunny Saturday morning in August.

So if there were a comprehensive, world-class email copywriting program out there...

That showed you everything you needed to know...

To **quickly and easily crank out high-converting emails** that make tons of sales...

So you can maximize your business profits...

Or **stack retainers and rev share deals from clients**...

I would've HAPPILY linked you to THAT program....

Then dragged my pasty body to the beach... but I can finally even out this "Italian Island tan."

But apparently... I'm more likely to find a UNICORN... than a course that shows you how to write world-class emails, step-by-step.

@ACLANKER - I like their style... but they shouldn't write emails for shit)

I KNOW this...

Because my team and I have gone through DOZENS of "top" email copywriting programs this year.

And umm, well, let me be nice...

A few of these programs had some great tips in there... even though there seemed to be some crucial details conveniently "left out."

And the majority of these programs were actually good enough to take you from "clueless beginner" to "decent."

Which would've been FINE if we were still living in 2021...

Where so many online businesses were able to get by without even MAKING their bios.

But "decent" doesn't fly in 2024.

- **NOT with ChatGPT + thousands of 19 year old Youtube/TikTok "CoPyWrItInG" LITTERING the market...**

(Making emails feel like a valueless commodity that's hard to find clients for.)

- **NOT with skyrocketing ad costs** that's making it SO much harder to turn a profit on the front-end of a funnel...

- **NOT with a struggling economy... filled with JADED customers...** who are becoming VERY hesitant to open up their wallets until you FULLY earn their trust.

Plus a bunch of other factors I don't even want to go into...

(Marketers hate emotion years for a reason.)

The bottom line is...

In 2024, Sending World-Class Emails That Trigger Massive Sales Is No Longer A Luxury... It's A NECESSITY!

Driven sales through email is STILL one of the MOST important skills to master...

For copywriters and business owners who want to actually MAKE MONEY.

And I say that... as someone who's been "in the inside" of ALL of it.

Because after privately consulting dozens of 7, 8, and 9-figure businesses over the last two years...

(Previously running CA Pro with Stefan... and now through Copy Coders Elite.)

I know how these businesses ACTUALLY pay the bills.

And what many people don't realize is...

A large portion of a company's PROFIT comes directly from their email list.

Not to mention... stuff actual PROFIT into their bank account.

The sad part is...

A lot of these businesses are leaving BIG money on the table.

Because even though everyone and their grandma seems to CALL themself an Email Copywriter these days...

- **Those who ACTUALLY know how to CONSISTENTLY craft emails...**
- That drive massive amounts of PRE-SOLD clicks...
- **Get prospects to eagerly CONSUME and buy from your sales messages/VSLs...**
- Or set up LAYUPS for the high-ticket phone teams...

Are actually STILL as rare as ever.

(And they're in EXTREME demand. Which is why they're able to command for $5-10K monthly retainers + rev shares.)

I know this...

Because I've worked with HUNDREDS of copywriters over the last year.

I've reviewed THOUSANDS of emails.

And I routinely have to FIX these emails on our weekly Genesis feedback calls...

Because most emails I see are usually MISSING a lot of the MAGIC that's needed to drive MASSIVE conversions.

Now don't get me wrong...

I'm not complaining about it.

I'm happy to roll my sleeves up...

And help turn our students' emails from "OK" to GREAT.

It's FUN for me.

But every time I have to make the fixes...

I feel GUILTY inside.

Almost like... I've been letting my people down.

You see...

I've been writing copy for 12 years now.

Generated well-over 200 million dollars for clients...

(Plus whatever "extra millions" I never followed up to find out about...)

I've written every TYPE of copy you can think of.

At this point, writing WINNING copy is second nature to me.

So writing good emails...

Is something I can do in my sleep.

But I'm NOT saying that to brag...

Quite the OPPOSITE...

I'm ADMITTING it...
because it's a PROBLEM.

A blind spot that I'm working my ass off to CORRECT.

Because if something's EASY to me...

It sometimes causes me to OVERESTIMATE how easy it is for OTHERS.

And since Luke and I build our workshops and coaching programs for active, WORKING, professional copywriters + entrepreneurs...

(We specifically DON'T go after beginners who think copy is some easy money hic-up...)

I kind of ASSUMED that our writers have ALREADY been taught how to craft winning emails... before even JOINING our programs.

That's why we never really put out a comprehensive email training program before.

I ASSUMED that OTHERS in the market... already had this handled.

So I THOUGHT we were free to work on all the sexy cutting edge AI stuff...

But as I'm stubbornly being reminded week after week...

My assumptions were DEAD WRONG.

There's Still A Huge GAP In The Copywriting Market... When It Comes To Writing World-Class Emails That Print $!

That's a BIG problem...

FOR the reasons I laid out earlier.

Because not only is "writing emails" the path that the MAJORITY of professional copywriters RELY on to make their living...

But businesses are literally DEPENDING on their writers being able to crank out high-converting emails.

Without enough CAPABLE email writers, the whole DR industry goes into its OWN recession.

And since our business caters to copywriters + DR businesses...

We're kinda invested in NOT letting that happen.

So...

Just like we did... when we reverse engineered winning HOOKS and Micro Leads...

(With our "Attention Hacking" workshop...)

And just like we set a new standard of customer research with our **AI Avatar Machine** workshop...

Luke And I Feel OBLIGATED To Pick Up The Batphone... And Answer The Call Of Duty AGAIN.

(Why didn't anyone tell me becoming a "COPY GURU" came with so much fuckin' responsibility?)

Because it's become abundantly clear...

We CANT just sit around waiting and hoping for SOMEONE else to step up.

To build a comprehensive A-Z program for writing high-converting emails.

So We Decided We're Gonna Have To Take Charge... And Build The Best Damn Email Copywriting Workshop That's Ever Been Created!

But...

The ONLY way we'd commit to doing that...

Is if we KNEW we could put together a workshop that lives up to OUR strict standards.

So don't get it twisted.

Because this workshop ISN'T just a rehashing of the boring basics...

Yes... we're going to cover important FUNDAMENTALS.

The CRUCIAL factors to making emails work...

...that most copywriters and marketers have NEVER been taught.

But...

If you decide to come along for THIS ride...

You better strap in.

Because the GOAL of this workshop isn't just to make you "competent" with email.

The whole purpose of this VIP workshop is to give you MASTERY.

That's Why We've Cleverly Decided To Name This Workshop:

AI Email Mastery

This workshop is going to cover ALL the important secrets you need to know...

So you can quickly and easily craft high-converting emails... to sell pretty much ANY product or service... in ANY market.

We're going to give you ALL the necessary fundamentals...

ALL the proven frameworks...

And... just in case the name of the workshop didn't tip you off...

Yes... We're Obviously Going To Give You A Bunch Of Proprietary AI Prompts And Processes...

So You Can Produce World-Class Emails... On Command...

In The Least Amount Of Time, Using The Smallest Amount Of Mental Bandwidth!

Yes, there's some work involved...

You're gonna have to do some "copy and pasting..."

You're gonna have to "course correct" now and then...

You're probably gonna want to make a few edits...

(Even though a lot of these emails are surprisingly good... completely unedited)

That's a GOOD thing.

If it was ALL 100% automated... then nobody would need to PAY YOU big bucks for producing these emails.

But as a self-admitted lazy fuck myself...

I'm willing to work REALLY hard... since...

In order to MINIMIZE the AMOUNT of work required on an ongoing basis.

That's why we spent so much time and energy TESTING different AI systems...

And finding out the BEST way to leverage AI to drive opens, clicks, and sales.

That's what we're going to share with you.

AI Email Mastery strikes that crucial balance between HIGH EFFECTIVENESS AND MAXIMUM EFFICIENCY.

Because when you have a SYSTEMIZED process...

For cranking out top-tier emails...

(BETTER quality than you'd write "manually")

In much LESS time...

That puts you in position to REALLY take advantage of the opportunities in the market right now.

And Luke and I are going to give you ALL the skills you need to exploit those opportunities.

Meaning...

AI Email MASTERY Is Designed To Be The ONLY Email Copywriting Workshop You Need... To Write High-Converting Emails In 2024...

Because if you take the time to actually ABSORB this workshop...

And internalize the processes we share with you...

You'll **vault into that top 5% of email copywriters** who actually know what the hell they're doing.

You'll have **the power to write high-converting emails** for businesses... and turn names into NUMBERS on command.

And as you build that reputation as someone who can **generate a shit ton of sales through email**...

You'll Be Able To Start Charging Higher Rates... And Even Command Lucrative Rev Shares.

(I'll show you the BEST model for doing that. This is a MAJOR focus for us this year.)

But BEFORE I get into some of the actual SPECIFICS of what we're going to share during AI Email Mastery...

There's something I want to be clear on.

We ALWAYS Over Deliver With Our VIP Workshops... But THIS Time, We Actually PLANNED On It Ahead Of Time!

Because if you've attended any of our VIP workshops in the past...

You probably realized that we usually sell them as "3 day trainings."

Then... what usually happens is...

We realize we have WAY more value to share...

Luke starts getting carried away...

And we EXTEND those workshops another day or 2.

But with **AI Email Mastery**, we're aiming BIG from the start.

We've packed so much VALUE into this training...

We're not even trying to fool ourselves into thinking we can get it done in 3 days.

We're giving NEED at least 5 days to share all these secrets with you.

Oh, and by the way...

All the secrets we're sharing... are based on what YOU actually told us you needed. And WANTED.

We didn't "GUESS" on how to make this workshop valuable...

We surveyed hundreds of marketers/copywriters...

GRILLING them about their biggest struggles...

Then we spent two full months SCouRiNG all those problems.

Now... we're ready to share the solutions with you.

Never Stress Over Coming Up With "Good Ideas" Again... We'll Show You How To Generate A Year's Worth Of WINNING Email Angles In Minutes!

ALL good copywriters/marketers know...

The STRENGTH of your idea is responsible for the majority of your results.

It doesn't matter how good of a "writer" you are...

If your idea sucks, there's gonna be crickets chirping in the inbox.

Yet... when we sent out our survey...

Ideation was THE #1 struggle people had.

People kept telling us it took them WAY too much time and effort to come up with WINNING ideas.

Well... Luke and I are going to reduce your ideation time to practically ZERO.

Because we've reverse engineered THOUSANDS of winning emails...

And more importantly...

We've Developed 5 KEY AI Powered Processes For Generating ENDLESS Amounts Of High-Converting Email Angles...

The same kind of angles... usually reserved for world-class copywriters.

But now... you're able to EXTRACT and REPLICATE these ideas... for ANY product or service... in seconds.

The crazy part is...

MOST of these processes require very little input or "thinking" on your end.

Literally ALL you have to do is follow our simple step-by-step instructions.

Paste EXACTLY what we tell you into Claude or GPT4...

Then wait 10 seconds...

As it spits out OPTIMIZED angles... that even a $500/email copywriter would likely struggle to come up with.

I don't like to overhype things, but I'm VERY confident...

If you master just ONE of these processes, you'll generate GREAT ideas MORE consistently than 95% of email copywriters out there.

So if you did or 2, 3... 4, or even all 5 of these processes, you'll literally have more A List Quality ideas than you'll ever need.

OK, cool...

So we have IDEATION handled.

We can check that one off the list.

But when it comes to the actual WRITING of the emails...

We simplified THAT for you, too.

We're gonna show you how to plug those WINNING ideas into PROVEN structures...

For **curiosity based "Click Driven" emails**...

(Like the kind you see dominating the affiliate circuit)

Personality driven "Value" emails that warm up your list...

(So you can INDOCTRINATE your leads... and get them COMMITTED to buying from you... WITHOUT being salesy or burning them out)

And **Book A Call emails**...

(If you work with any high-ticket coaching clients, don't be surprised if the sales team starts sending you GIFTS. Because you'll be flooding the phones)

Because we're going to show you...

How To Use The 5 Crucial Copy Blocks To Generate High-Converting Emails That Drive Massive Amounts Of Clicks

We've been simplifying the copywriting process behind-the-scenes for close to a year now.

And we found that pretty much ANY winning sales message...

Can be reduced to **5 crucial COPY BLOCKS... that do nearly ALL the heavy lifting**

This is ESPECIALLY true with email.

Which means...

High-converting emails...

That generate a massive amount of clicks...

And drive thousands of dollars in sales...

Don't even NEED to be "written."

They can simply be ASSEMBLED.

All you gotta do is **EXTRACT these 5 Copy Blocks**...

(We'll show you how.)

Then **"PASTE" them in a specific order**...

(Which we'll also show you...)

And you can **get maximum eyeballs on ANY sales message**.

So really the amount of time you spend on these emails is up to you.

If you're a perfectionist... you might wanna do some light editing after.

But as long as you use copy and paste these 5 copy blocks... you'll be driving some SERIOUS clicks.

We're Also Gonna Walk You Through The "Book A Call" Email Playbook...

Breaking Down The Most PROVEN High-Ticket Email Frameworks That Work Over And Over Again!

These frameworks are the backbone of DOZENS of high-ticket businesses in the coaching, consulting, and agency spaces.

The MOST successful businesses rotate through these PROVEN angles (see) and over again.

And I'm gonna break them down FOR you.

I'm gonna show you **WHY these emails work**...

The EXACT way to structure these emails for maximum conversions...

And... **how to leverage AI to do nearly ALL the heavy lifting FOR you!**

Because all the emotional hot buttons you need to sell to YOUR market...

Have ALREADY been written FOR you!

And I'm going to give you the SPECIFIC prompts you can use to ACCESS this goldmine of persuasive firepower.

So you can become a call booking MONSTER...

With the ability to keep ANY phone team busy... with layup leads who are pre-sold before even TALKING to them.

That's a REALLY valuable skill...

Because these high-ticket offers are where a lot of the EASY money is for copywriters.

I mean, think about it...

If a business is generating $5K or $10K or even $15K PER sale...

And you're able to consistently fill their phone lines with red hot leads...

Well, then suddenly going you a 5K or 10K retainer doesn't seem so hard to swallow, does it?

You'd literally pay for yourself with ONE sale.

They get tons of THOSE clients... and you're sitting pretty.

So we're gonna arm you with the tools to make you an ASSET to those clients.

And that's not even the most LUCRATIVE opportunity I see.

Because I'm Personally Gonna Walk You Through A 2 Hour Master Class On Crafting Email Cash Injection Promos... That Bring In Up To $10 PER Subscriber!

(Not per OPEN... or per CLICK.. per NAME!)

Not to toot my own horn...

But I've gotten pretty damn good at putting together these little email promos over the years.

When we promoted the AI Avatar Machine workshop a few months ago...

We made 120 sales.

That's around $60,000.00 in revenue...

From a small email list of 6000 names.

That's $10 generated PER subscriber.

Just from a simple mid-ticket offer.

No upsells. No courses. No headaches.

Pretty impressive... considering the fact that MOST of those names were imported from our FREE newsletter...

AND the fact that our BEST subscribers (our Genesis members) already get access to the workshop for FREE.

Now... part of this was because the offer was good...

(Pro tip: make sure your offers are good.)

And another HUGE part of it was DONE I structured the email campaign...

A process I've dialed in over the years...

After working with DOZENS of clients... in every niche from health to real estate investing.

And for the first time ever...

I'm gonna give you the secret sauce behind putting these promos together.

I'll show you HOW I structure these campaigns...

ALL the important types of emails to send...

And **how to use "Hormonal Sequencing" to trigger absolute BUYING frenzies**... that make your payment notifications sound like a broken pinball machine.

No joke...

Luke and I are literally building a 7-figure agency RIGHT NOW... based on running these Cash Injection promos for clients.

Because after running dozens of them...

I know these promos can consistently and $5-10 PER subscriber...

(If you want us to build on for YOUR list, hit us up. We'll do it all and split the profits.)

And it's basically FREE MONEY for your clients...

So as a copywriter, it's the easiest way I know to get "ownership" in an offer.

Because you can walk in...

Put one of these promos together for a client...

And command 30-50% of the profits.

Which means... with the right list...

You can walk away with a royalty check of $30K, 50K, sometimes even 75K or more...

Just from running a simple 5 day promo.

That's a LOT easier than trying to earn royalties through writing a banger cold traffic VSL.

And I'm going to walk you through the WHOLE process.

Including when and where it makes sense to leverage AI.

PLUS... We Have A Bunch Of Other Crazy Valuable AI Assets To Share With You, Too!

For example...

We have an AUTOMATED checklist... for COPY CHEEFING emails.

Because even though we're giving you IDEAS and the STRUCTURE...

You don't want to WASTE killer emails with shitty writing.

But honestly, nowadays, the actual writing is the LEAST important part of the process.

Because we have an automated checklist for improving the clarity, emotion, and persuasive power of ANY email.

You can walk through this checklist...

Or simply upload it into an LLM like Claude...

And you'll activate a grumpy, grizzled, meticulous attention-to-detail copy chief, who screams at you in a jarring New York accent...

(Can you tell who it was built after?)

That'll eliminate fluff and confusion from your emails...

And MAXIMIZE those emails for easy comprehension.

Plus... we have the "Done-5 Dirty Email System" that produces pretty damn good emails in seconds... with no writing or editing required.

Look, we're human.

Sometimes we don't feel like doing any work.

Maybe we had one too many drinks the night before and our brains aren't working.

Maybe we're late to catch a flight to a ridiculously expensive UFC event...

(Don't remind me how much I've spent.)

And we just don't wanna write any damn emails.

But our clients still NEED those emails.

Well, that's where the "Done-5 Dirty Email System" comes into play.

All you gotta do is upload 2 documents into Claude...

Then show them the kind of email you want to model…

And you'll be able to PRINT 1…3….5…10 of those emails in seconds.

Then… just send the best ones to your client. And call it a day.

I consider these B+ level emails.

They're still better than what most "email copywriters" write.

And they can come up CLUTCH for you in a pinch.

Now… we have more to share…

But there's ONE thing that's really important to us.

Because even though Luke and I are really good at WRITING high-converting emails…

And even though we've each ran 8-figure email lists for clients in the past…

I'm not gonna lie to you… and pretend that we're some email management experts.

That's NOT our main thing.

We haven't really managed lists in years.

So instead of letting our egos take over…

Teaching you a bunch of outdated strategies…

And PRETENDING we're the best at it…

We decided to bring in the ACTUAL best email experts in the world.

So we're NOT coming into AI Email Mastery on our own.

We resorted to MAFIOSO tactics.

I called up a few of my shadiest cousins…

And told them to be "extra persuasive…"

The next thing you know…

We ~~STRONG-Armed~~ Invited A Legit All-Star Panel Of A-List Email Assassins…

And ~~BLACKMAILED Them~~ Politely Asked Them To Share ALL Their Best Secrets As To What's Working Now In 2024!

Out of the ~~fear for their lives~~ kindness of their hearts…

They agreed to join us LIVE for the first ever A-List Email Expert Virtual Speakeasy.
Imagine… going out for a private VIP dinner with 5 of the best email experts in the world…

And getting them to write down ALL their best secrets…

As to **what's working NOW in 2024**…

On a cocktail napkin that the rest of the world won't ever see.

Then… answering all your most pressing email questions… for 2 hours.

Well, we organized a VIRTUAL version of this exact scenario.

And we brought in some REAL heavy hitters for this…

Including **Jerrod Harlan**, the Head of Email at Clickfunnels…

Jimmy Rutkowsky, the Book A Call phenom who's a secret weapon for Cole Gordon and other 8-figure

Robin Burke, the "Maximum Clicks Maestro" who routinely generates 60-70% of the HIGHEST converting emails at an 8-figure health company each month…

Joey Percia, the email swiss-army-knife who runs the Email team at the rapidly-growing Performance Golf…

And **Christian Davis**… the genius behind a $2.7 million launch for one of Hormozi's TOP brands.

These are email MONSTERS… who are in the trenches every single day…

Sending millions of emails month after month.

They have access to more email data… across more diverse niches… than any squad you can assemble.

And they're gonna spill it all during a LIVE call… as part of AI Email Mastery.

But we're STILL not done.

Because On The 5th Day Of AI Email Mastery, We're Going To Do A LIVE Implementation Workshop…

Where We'll Actually All Write Emails TOGETHER!

Yeah… our trainings are entertaining.

There's no doubt.

We're gonna have fun.

But it's NOT our goal to entertain you.

We're here to **DELIVER results**.

We want to INSTALL skills in you… that you can actually USE to make money… for your business… for your clients… and for yourself… for YEARS to come.

So after 4 days of unloading all our best email secrets, systems, and processes…

Before we release you back into the wild…

We're gonna make sure you ACTUALLY know how to leverage all this stuff.

That's why we're hosting this IMPLEMENTATION session…

Where we'll work WITH you to craft emails…

And help you bring your emails up to a world-class level.

This way, by the time we're done…

There's no doubt in your mind.

No uncertainty.

No confusion.

You leave TRANSFORMED forever…

With the VALUABLE, highly in-demand skill set of being able to turn subscribers into cash.

Sound good?

Cool.

So here's the boring logistical stuff:

The LIVE AI Email Mastery Workshop Will Start On Wednesday September 4th At 2PM Eastern…

We'll meet on Wednesday the 4th… and again on Thursday the 5th…

We'll cover all the ideation, "click driving" emails, and Book A Call frameworks on these days.

Then instead of overloading you…

We'll give you a little bit of time to process…

So you can play around with the systems we're sharing.

Then we'll meet up AGAIN the following Tues-Thurs for the Email Cash Injection workshop, the A-List Email Virtual Speakeasy, and the LIVE Implementation Workshop.

And yes… in case you can't make any of these calls LIVE…

You WILL have access to the recordings.

They're usually sent out the SAME night as the LIVE calls…

That way, you can "catch up" before the next live class.

Obviously, This Is Some INSANE Value… And We EASILY Could've Justifiably Charged $5000 For AI Email Mastery… But We Aren't!

Look… our workshops usually attract high quality people…

Who are smart enough to realize the COMPETITIVE EDGE we offer.

That's what makes our workshops fun.

And AI Email Mastery is easily the most TACTICAL workshop we've ever put together.

Yes, there's theory and fundamental concepts we HAVE to share with you…

But at the end of the day…

This is about writing BADASS emails that print $… for both you and your clients.

It's also about writing those emails QUICKLY… with less stress and strain.

So considering that we're gonna show you how to write "click driver" emails, Book A Call emails, and run full-blown Cash Injection promos…

We'd easily be justified in charging 2K, or 3K, or even $5000 for this workshop.

I mean… it only takes ONE email retainer client to ROI on that investment.

In ONE month.

And if you run a Cash Injection promo for the RIGHT client… you can get a 5-10X return on your first deal.

But it's not our model to charge as much as we can.

We don't need to make this a short-term money grab.

Luke and I both make more money WRITING copy than teaching copy…

So we like to make our trainings ACCESSIBLE.

And that's NOT for some cheesy altruistic reasons.

Get it straight…

I WANT your money.

But I know that when we OVERDELIVER here…

And hand you a PROFITABLE skillset now…

You'll be way more likely to CHOOSE to work with us for years… in part of Genesis or Copy Coders Elite.

Which means…

It's SMART business sense for us to make this an EASY YES for you.

And that's why you can sign up for AI Email Mastery today… for just a single one-time investment of $497.

No brainer.

You can make that back in a couple of emails.

Less than an hour of work… using the secrets we're sharing with you.

But we know how the game goes…

We know that a lot of copywriters are going through a bit of a freelancing roller coaster.

So if that $497 is tough to swing right now, we'll even let you break your investment up into 3 easy payments of $179.

(Yes, we expect you to make all the payments. Don't make me call those cousins again…)

So really, there's NO excuses…

We're making this affordable for copywriters and marketers at ALL levels.

We want to give you a REAL SKILL SET that can help you command more value in the market…

So that you can start stacking retainers and rev share deals…

And put yourself in a BETTER financial situation.

There's no doubt in my mind…

If you actually APPLY the secrets and systems we're sharing, you can literally change your life.

It only takes ONE client to deliver a massive return.

So make sure you sign up…

An Email Strategy MASTERCLASS With "Behind-The Scenes Savage" Cole Vandewoestyne

(Over $130M In Results)

I wasn't kidding when I said Luke and I brought in the best of the best for this training.

That's why we reached out to Cole Vandewoestyne…

A brilliant email strategist who's driven over $130 million in email sales…

Working with big names like Keala Kanae.

(Who I've ALSO worked with.)

Cole gave a no-holds-barred expose around what's working now in 2024…

- **He revealed his best strategies for boosting open rates from 25% to 65%…**
- How he added 150K/month to a client's revenue using email…
- **The EXACT strategies he used to generate over 20M for another client…**
- Plus… the easiest way for copywriters to reach 10K/month… (he's helped 1000s achieve this goal)

We held this training inside Genesis a few weeks ago.

We have it uploaded in the AI Email Mastery members area… ready for you to access right now.

BONUS 2:

An Insider Breakdown Of The Biggest Email Launch ($2.7M) Of 2024…

With Christian Davis!

Look… I gotta be careful talking about this one.

This launch was so successful, Alex Hormozi made a Youtube video about it.

(Rumor is… it was for one of his top portfolio companies. I can't officially confirm or deny.)

What I can tell you…

Is that my friend Christian Deeks...

Joined us to set the record straight...

And break down the EXACT strategy that he would've used for this launch...

If he "just happened" to be the copywriter responsible for putting it all together.

Again... not making any claims here.

You're smart.

You can judge for yourself.

But the video breakdown of this hypothetical launch is waiting for you.

⚙ BONUS 3:

Plus Over 10+ Hours Of ADVANCED Email Training From Inside The Copy Accelerator Vault...

I'm not pretending that Luke and I are the only ones to put out valuable email training.

The problem is...

A lot of the OTHER trainings were gazed behind $2K4 a year masterminds like Copy Accelerator PRO.

Luckily, we have ACCESS to those trainings...

And we gathered up ALL the best email training from the CA Vault...

Over 10 hours worth...

And we're sharing it all WITH you...

As a FREE bonus.

You'll discover weird tricks, psychology tactics, frameworks, swipes and SO much more...

From the email marketing elite and many others...

ALL Of This Is Included Inside AI Email Mastery...

Plus... a few other surprises that I'll choose not to mention...

   AND we'll show you the BEST opportunities WE see right now...

(Including the Cash Injection Promos we're literally building an agency around. So we're WALKING the WALK.)

Those are the FACTS.

We're opening up the door FOR you.

If you choose to walk through that door...

The OTHER side of it will probably look something like this...

That's not a claim.

Consider it an "educated guess."
